Mom

Date:- 15th March, 2024
Team no :- 8
Client: Mrs.Lalitha Gutha
T.A.: Mr.Akshit Sharma

1) The client has been shown the mechanism of fetching the details from the database when applicants submit the form and displaying them at the end.

2) We have shown the form for adding positions, and the client said it's okay as long as it's integrated.

3) The client has asked to implement the mechanism in which applicants can track their application status.

4) The client has asked to implement the mechanism in which applicants can track their application status.

5)We have to create one more page for tracking their status

6) Clint has asked to implement API to enable shortlisting mechanism, fetching details of applicants, etc…

7)Shown the mechanism to display all the applicants and options to sort and filter the columns in the admin portal to the client

Next meet:- 19/3/24
